Experience

Frontend Developer [React.js, Tailwindcss, Gsap, Framer](#)

Frontend Development | 2023 - Present

- Took full ownership of client communication, from gathering requirements to delivering polished frontend solutions.
- Developed high-quality interfaces using React.js, TailwindCSS, and modern component-driven architecture.
- Implemented smooth, premium-grade animations and interactions using GSAP and Framer Motion to elevate the product experience.

Buildnow.ai [UI/UX designer | Figma](#)

UI/UX Designer | July 16 2023 - August 16 2023

- Used Figma to create wireframes and prototype
- Also created whole user flows from start to end using Figma
- Built a whole userflow which contained micro-interactions and animations

Fiverr/Upwork [Frontend Developer](#)

Frontend Developer | July 16 2022 - 2023

- Delivered responsive, high-quality React.js and HTML/CSS projects for international clients with fast turnaround times.
- Built modern landing pages, dashboards, and UI components tailored to each client's business needs.
- Collaborated directly with clients to define requirements, propose solutions, and execute projects end-to-end with complete ownership.

Projects

Amway US & Indi [React.js, Next.js, Node.js, MUI \(Material-UI\)](#),

Developed high-performance, mobile-responsive React.js and

- Next.js pages for Amway US & India, ensuring smooth cross-browser compatibility.
- Integrated frontend with Node.js backend services and built a polished, global-branding-aligned UI using Material-UI (MUI).
- Used Jest for unit, integration and end-to-end testing

DAA: Dublin Airport Authority [React.js, Next.js, Node.js, MUI \(Material-UI\)](#)

- Built dynamic, SEO-friendly React.js and Next.js pages for Dublin Airport's digital platforms, boosting performance and user experience.
- Used Material-UI (MUI) to deliver responsive, accessible, and brand-consistent UI while integrating APIs using Node.js for smooth functionality.
- Worked in an Agile setup, ensuring fast, efficient delivery of features while meeting deadlines and client expectations.

Education

Medicaps University 2020-2024

Btech In Computer Science and

Business Systems

Current Cgpa: 9.1

St.Paul Higher Secondary School

Physics , Chemistry , Maths

12th Standard 89%
