SUMMARY

Product-driven engineer and designer with 3 years of hands-on experience building and shipping real products. I take ideas from zero to production, owning everything from system architecture to polished UI. Strong bias toward execution, clean design, and measurable user impact. Comfortable operating in ambiguity and turning vague concepts into scalable, high-quality systems.

PORTFOLIO : https://experimental-portfolio-site-bom3.vercel.app

PROJECTS

Meet AI

- Built an AI meeting assistant that generates summaries and action items from conversations.
- Integrated speech-to-text and LLM APIs for structured outputs.
- Designed a clean dashboard to manage meeting history and tasks.

API Latency Tracker

- Built a tool to monitor API response times and uptime.
- Logged and visualized performance data in real time.
- Implemented alerts to detect bottlenecks.

AI Learning Assistant

- Developed an AI study tool that generates explanations and quizzes.
- Added adaptive questioning for personalized learning.
- Designed a simple UI to track progress.

EXPERIENCE

Freelance Product Developer   **July 2023 - Present**

- Built and deployed full-stack applications using Next.js, Node.js, and REST APIs.
- Developed scalable, responsive interfaces with Tailwind CSS and modern frontend practices.
- Managed backend integration, authentication, database design, and production deployments.

Buildnow.ai   **June 2023 - July 2023**

- Owned end-to-end UI/UX for core product features from wireframes to production
- Worked directly with founders and engineers to convert unclear requirements into usable interfaces

EDUCATION

Medi-Caps University

- CGPA: 9.0 / 10 - Btech Computer Science and Business Systems

St. Paul's Higher Secondary School

- Score: 90.5% - Class XII

SKILLS

JavaScript (ES6+), TypeScript, React.js, Next.js, Vue.js, Node.js, Express.js, REST APIs, MongoDB, MERN Stack, Full-Stack Development, Responsive Web Design, Tailwind CSS, HTML5, CSS3, State Management (Redux, Context API), Authentication (JWT), Git, CI/CD, Deployment (Vercel, Netlify), Performance Optimization, System Design Basics, UI/UX Design, Figma, Design Systems, Wireframing, Prototyping, AI-Driven Features, Prompt Engineering, OpenAI API Integration, Product Thinking, MVP Development, Python.
